

About the Courses

Industrial and Construction Site Safety (2 hrs)

2 CEU Credits: SAF-10-0001

This section will review the proper procedures and practices to ensure a safe working environment for workmen in an industrial setting. The participant will receive instruction on proper industrial work safety.

The NJ Uniform Construction Code (2 hrs)

2 CEU Credits: L/C-10-0002

This section will introduce the participant to the permit and inspection requirements contained in the NJ Uniform Construction Code. Subjects will include: permitting, licensing, certificates, and the referenced standards. The participant will be familiar with the various rules that regulate installation of fire alarm and security systems. In addition, participants will also learn the process they need to follow to ensure a legal and properly installed system.

Understanding the NJ Barrier Free Subcode and Understanding the Americans with Disabilities Act (2 hrs each)

4 CEU Credits: L/C-10-0001 and L/C-10-0003

This section will review the requirements of the NJ Barrier Free Subcode (NJAC 5:23-7) and the Americans with Disabilities Act Code (36 CFT §1191), as they apply to both construction projects and the installation of alarm systems. The participant will understand the code requirements and options as they apply to building and fire systems. Various visualization and/or audible sensing alarm components available to disabled individuals will be reviewed.
